Although Carmen refuses to discuss her past life, it is said, and upon good authority, that she was born in Old authority, that she was born in Old Mexico. Some years ago she became a resident of Denver, Colo. Rumor has it that she accompanied her father there. Her striking beauty, a characteristic of the Mexican and Spanish girls in maidenhood, made her the belle of the Spanish circle in the Centennial state capital. Her father is reputed to have lost his money at a time when Carmen was noted for her grace as a dancer. To assist her father, she went dancer. To assist her father, she went upon the stage, and as a dancer added to her popularity.

Duel Fought For Her Hand.

It goes without saying that the girl had many suitors for her hand, and many admirers who did not have the courage to court her. One day, as the story goes, two of her most ardent wooers quarreled about her. Hot words brought forth the lie, and a challenge was issued. The two met on the shores of Rocky Mountain lake, a summer pleasure resort of Denver. A young man named Sanchez, whose given name pleasure resort of Denver. A young man named Sanchez, whose given name was characteristic of his native country, Jose, was the victor. After that he was the recognized fiance of the belle, and their marriage followed. Not long after that the couple dropped out of sight. Where they went is not known. The next heard of Carnen was in Salt Lake. In due course of time she was arrested in connection.

that city in queest of additional evidence
against Carmen, and likewise to get
a trace, if possible, of her two alleged
accomplices.

NEW INDIAN AGENT.

Harry Wadsworth of Lander, Wyo., the Lucky Man. (Special to The Herald.)

Washington, D. C., Feb. 7.—It is expected that the nomination will be sent to the senate early next week of Harry P. Wadsworth of Lander as agent for the Shoshone agency, Wyoming, to succeed Captain H. G. Nickerson, who will be appointed allotting agent to al-lot lands on the reservation in sever-alty to Shoshone and Arapahoe In-

dians.

It is expected, also, that F. S. Smith of Lander will be nominated as postmaster at that place, and that Mr. Smith's position as disbursing clerk at Shoshone agency will be filled by the appointment of George T. Harris.

Senator Clark of Wyoming has gone to Asheville, N. C., as one of the senate committee appointed to attend the funeral of Representative Moody.

The local stock and bond market has been active and strong, Utah Sugar being the only weak spot. The principal reason for this is that many heavy holders of Utah Sugar are unloading in order to pay their subscriptions to the Idaho Sugar company, the first installment of 25 per cent being soon due. Idaho Sugar stock is not on the open market, and probably will not be for some time. Utah Sugar preferred sold from \$9.55 down to \$9.92, and the common sagged from \$3.65 to \$3.55. Many physicians who advertise to cure piles, without the aid of the knife, simply use Pyramid Pile Cure remedies. They do so because they know it is the best medicine for obtaining a proper combination of the most scientific ingredients for the cure of piles.

Pyramid Pile Cure is not in an experimental stage, but is an established remedy and is recognized and used by the best physicians in the country. Being in suppository form, it reaches the bituminous districts of Indiana and at Danville, the basing point of Illinois.

Children who suffer from this painful trouble obtain relief at once. It is well with a very young child to reduce the size of the suppository before using. However, if children are afflicted with piles, they should be treated without delay or the trouble may become chronic. Hundreds of little ones have been cured with Pyramid Pile Cure.

The prevention of piles is better than the cure, and they can be prevented if only people would look to the regularity of the bowels and not become constipated. Constipation and its attendant ills can be avoided by the use of Pyramid Piles. The proprietors of the Pyramid Piles Cure saw that it was necessary to use with the majority of their and the Pyramid Pills for constipation were the result of much careful thought and patient investigation. Meeting Last Night.

BOAD CAN BE BUILT.

The ralifoad, tonnage, wagon hauls, water and other questions were discussed during the meeting by such men as John Dern, President Hills of the Four Metals company, Captain Duncan McVichie, Marcus E. Jones, Manager Johnson of the Dewey mine, Judge Goodwin, C. D. Rooklidge, J. M. Hamilton, Fisher Harris, Major Wilkes, Angus M. Cannon, Harry B. Windsor and others.

others. The consensus of opinion expressed was that if the property owners would get down to business and make such a showing as the merits of their properties justified, it would not take long to get a railroad. In the meantime, it was arrived that the best thing to do was argued that the best thing to do was by some means to raise money enough to construct a good wagon road, provide water and other accommodations en route, in order that at would be easier to get in and out of the country.

Districts Possess Merit.

Captain McVichie, who experted the country first in 1896 for Chicago people, and who has since become interested in the country himself, declared that the formations of the districts indicated that with development an immense tonnage of smelting ores. an immense tonnage of smelting ores could be relied upon. The districtpossessed much merit, but had been
sadly neglected. Such neglect, he said,
could hardly have happened in any
other state of the Union. If good roads
were constructed and travel made less
burdersome he like a majority of the burdensome, he, like a majority of the other speakers, felt that little trouble would be experienced in getting capital to aid in the opening of the mines. A committee of three, consisting of James Chipman, J. P. Gardner and H. M. McCartney, was selected to investigate the good roads, water and kindred matters, while a motion prevailed authorizing the chairman, Mr. Dern, to appoint two other committees, one to appoint two other committees, one to learn the amount of tonnage of which the section is capable, and another to investigate the desirability of putting on automobiles and traction engines to

on automobiles and traction engines to handle passengers and freight between here and the camps, pending the construction of railroads. These committees will be named tomorrow.

The exchange of ideas at the meeting showed that a keen interest is being taken in the country, and if the agitation is kept up, as suggested by Mr. Dern, Deep Creek and its mines will be better known a few months hence than today. After thanking the Commercial club for the courtesies extended, the meeting adjourned subject to the call of the chairman.

Bloemfontein, Feb. 7.-The conference here yesterday between Colonial Secretary Chamberlain and forty Boers of the extreme party, including Christian De Wet, at which Chamberlain rebuked the delegation for presenting him with an address which

senting him with an address which he regarded as insulting, inasmuch as it impugned the good faith of himself and the government, has further widened the breach between the Boer factions. Christian De Wet, who spoke after Mr. Chamberlain, said:

"His remarks would come like mustard after meal," and concluded with asserting that no co-operation of the Boers was possible so long as Piet De Wet and Christian De Wet both represented the people. The country would not be ruled by them, but would rule them. De Wet would not rest until he had caused a rebellion, not an armed rebellion, but a rebellion of agitation and discontent against the government.

from a Puritanical point of view. But when circumstances have brought them fogether, they have often played important roles in fiction, poetry and history.

And so it is in the case of Carmen Montez, the pretty little Mexican girl who is confined in the county juli in connection with the robbery of the postoffice at Bountiful, the latter part of January. Her past life is replate with romance, and her eventful spirit, so often found in the warm-blooded and impulsive people of the semi-tropical climate, is responsible for her present unenviable position, provided the assertions of the postoffice authorities that she is indirectly connected with the erime are correct.

Utah-Idaho Sheep Cases.

Boise attorneys were somewhat sur-prised at the decision of the circuit court of appeals at San Francisco, which virtually throws down the bars for the admission of Utah sheep to the Idaho range, despite the rigid quarantine laws of this state. The decision, in its entirety, has not yet reached the in its entirety, has not yet reached the city, but the press dispatches give an idea of the grounds of Judge Gilbert's decision. While the learned judge evidently does not maintain the law as unconstitutional, he does assert that it is improperly used. The Idaho sheepmen can be derended upon not to let men can be depended upon not to let the matter rest, and an appeal will doubtless be taken to the supreme court of the United States and, further than this, additional legislation m passed through the legislature.
